## MEMORABLE MOMENTS

"For me, the first stretch project I was given by Jan Bellack was to be in a small group of me and two Introverts. As an Extrovert, Jan asked me to go into the first meeting and not speak first. This was the hardest assignment - and it took almost a full two minutes before the group members started talking! Learning to 'not speak first' was a powerful tool for me that has been an essential leadership lesson."
